

Resource person: Sherin Thambi

Platform: Google meet

Date: 20-02-2022

Time: 7pm

Webinar topic: Importance Of Continuous Education

The banner features a dark blue background with yellow and white accents. At the top left is the logo of Mar Baselios Christian College of Engineering & Technology, Kuttikkanam, Peermade. At the top right is the logo of the Department of Electrical and Electronics Engineering. A quote reads: "Education is the passport to future for tomorrow belongs to those who prepares for it today". The main title "IMPORTANCE OF CONTINUOUS EDUCATION" is in large yellow letters. Below it, "SPEAKER" is written in white. A circular portrait of Sherin Thampi, a man with a mustache in a dark suit, is centered. To the left of the portrait, it says "Online WEBINAR" and to the right, "20th-FEB-2022 07 PM". Below the portrait, his name "SHERIN THAMPI" is written in white, followed by "Asst.Prof ME Dept , AJCTE". At the bottom left is a Google Meet link "hyp-uydc-hmm" and at the bottom right is a phone icon with "More Info : 9544246789 7561065481".

Continuous learning in the workplace has the potential to expand employee skill sets, increase skill and knowledge retention, generate

new ideas and perspectives, boost morale and raise overall employee performance. On the level of the individual employee, this can: Help achieve career development goals. It can help you develop new skills, remain relevant in your field, earn more money, and realize big dreams. Life is an ongoing learning process, after all, and no one should ever stop learning; not even those who bagged companies and high-paying jobs.

- Remain relevant. Don't be left behind
- Prepare for the unexpected
- Boost your profile
- Competence leads to confidence
- Spark new ideas
- Change your perspective
- Pay it forward

The premise of continuous learning in a work environment is to retain knowledge and skills of employees over time. In traditional training, the level of employee knowledge rises and falls when it peaks after an acute training event and gradually depreciates over time from lack of reinforcement.

In continuous learning, employee knowledge is the result of multiple learning events. Continuous learning allows an organization to reach higher levels of employee knowledge and sustains the peak with reinforcement activities on consistent intervals.
