

One Day Workshop on TRANSFORMS AND APPLICATIONS

07 November 2017

Dr. Shiju K Swamy
Professor, Department of Mathematics
SaintGits College of Engineering

Conducted by
DEPARTMENT OF ELECTRICAL AND ELECTRONICS
ENGINEERING

MAR. BASELIOS CHRISTIAN
COLLEGE OF ENGINEERING & TECHNOLOGY
KUTTIKANAM, PEERMADE

EVENT REPORT

The programme started on 9:30 AM. Prof. Annu Mary Zacharia introduced resource person

He started his class with introduction about signals and systems then he explained about Transforms and Applications which solidifies its place as the complete resource on those mathematical transforms most frequently used by engineers, scientists, and mathematicians Highlighting the use of transforms and their properties including properties of the delta function and some classical orthogonal functions. He goes on to detail different transforms, including lapped, The material is presented in a way that makes it easy for students from different backgrounds to familiarize themselves with the wide range of transform applications.
