A total of 244 ambassadors joined in from various colleges. They were managed by a team of coordinators and volunteers from IEEE MBCCET SB. The details of EXORDIUM was delivered to each college through these ambassadors. An official WhatsApp group was formulated for the same. The Ambassador program started with an 'introduce yourself' session and later various tasks were assigned to them. They were divided into subgroups and instructions were given accordingly. Regular meetings were conducted via Google Meet. Fun games and tasks were also given to create a good networking ambiance. The participation of the volunteers was monitored at all stages and evaluated accordingly.
