## Report

### "PYTHON INTERNSHIP"

*"Programming is a skill best acquired by practice and example rather than from books."*

**--ALAN TURING**

An alliance with **Revertech IT Solutions** and **IEEE MBCCET SBC** contributed an internship of 7-days on high-level programming language, **PYTHON**. This event was part of **'Exordium'**: the official inauguration of IEEE Computer society SBC and IEEE Computational intelligence society SBC.

The sessions were handled by **Mr. Midhun M**, Data analyst at Hashwave Technology, Cofounder of Revertech IT Solutions. This event was virtually conducted through the Google meet platform, held from **15th to 21th** of June 2021. This live class duration was from 7-9 pm. Each session was concluded with Q&A. Recordings of the sessions were also provided.

It was beneficial as a beginner in programming as well as a known programmer. The event was successful with the active participation of the delegates from various IEEE student branches. By the end, a project was assigned as the criteria for certification.
