

# Event Report

Name of Event: Introduction to web Development

Date of Event:25-03-2023

No:of Attendees:64

## Event Summary

**Agenda:** Introduction to Web Development

A class based on the topic web development was held on 25-03-2023.

A class was conducted to first years about the basics of web development and advanced frameworks. We conducted this event to make students to get a basic idea about the web development languages like HTML, CSS, Advantages and Disadvantages of Flutter, Introduction to Advanced Framework, Frontend and Backend. The Class was led by Atul Mohanan S8-CSE.

We were provided with presence and guidance of Prof. Anju Rachel Oommen. There were 64 students registered for this class. There was a QA session for the students to clarify there doubts. Feedback was taken from the two students.
