

## FACE PAINTING COMPETITION

A FACE PAINTING COMPETITION was conducted on October 13/10/2023. The theme of the competition was “Fairy Tale” and almost 100 students participated in it. The face painting competition is an event where all the students of MBCCET have appeared with their pair and participated in face painting on the theme “Fairy Tale”. The Face Painting Competition on a “Fairy Tale” theme offers a unique blend of artistic expression, storytelling, and cultural appreciation.

### Objective of the Exhibition

The objectives of the Exhibition were as follows:

- Allowing students to develop their artistic skills and explore different styles.
- A source of entertainment for both participants and observers, providing a lighthearted and enjoyable experience.
- Skill development of students through face painting as it is a skill that requires precision, dexterity, and colour theory.

### Conclusion

The Face Painting Competition with a “Fairy Tale” theme can be a valuable experience for college students, providing a platform for creative expression, skill development, and community building. And also the theme can be an opportunity to explore and appreciate different cultural narratives and artistic expression.

## **JUSTIFICATION WITH PO**

### **PO9 – Individual and Team Work**

Justification: Students often participate in teams or individually, fostering collaboration, coordination, and peer interaction.

### **PO10 – Communication**

Justification: Participants communicate their ideas through art, presentations, or theme explanation enhancing non-verbal and creative communication skills.

**PO6 – The Engineer and Society** thematically related to social or technical awareness, e.g., energy conservation, sustainability

Justification: If the face painting includes themes addressing societal issues (e.g., clean energy, anti-drugs, environment), it reflects the student's understanding of engineering's impact on society.

**PO7 – Environment and Sustainability** theme-based on environmental conservation

Justification: If the competition theme is eco-awareness, climate change, or sustainability, students creatively express their understanding of environmental challenges.

### **PO12 – Life-long Learning**

Justification: Participation in extracurricular activities promotes creativity, adaptability, and learning beyond the classroom, aligning with the spirit of continuous learning.
