BLOOD DONATION – REPORT

OBJECTIVE:

The primary objective of the one-day blood donation camp was to raise awareness about the importance of voluntary blood donation and to contribute to the lifesaving effort by collecting blood from healthy donors. The event aimed to instill a sense of social responsibility among students and staff while ensuring adequate availability of blood for those in need.

DATE & VENUE:

The blood donation camp was held on October 25th 2024 at Mar Baselios College of Engineering and Technology.

ACTIVITIES CONDUCTED:

- Registration and pre-screening of donors.
- Medical check-up including blood pressure, hemoglobin, and health condition evaluation.
- Blood collection by trained medical professionals.
- Issuing of donor cards and refreshments to the donors.
- Awareness talks on the importance of regular blood donation.

PARTICIPANTS:

A total of 100+ students and staff participated in the event, out of which 200 successfully donated blood. Volunteers helped coordinate the entire process, ensuring smooth operations and maintaining hygiene protocols.

PHOTOS:

OUTCOME:

The camp resulted in the collection of 100+ of blood, which will be used to save lives in hospitals and emergency cases. The enthusiastic participation and the positive feedback from the donors made the camp a great success.

CONCLUSION:

The blood donation camp was a meaningful and impactful event. It not only contributed to saving lives but also inspired many individuals to become regular donors. Such initiatives foster a spirit of community service and social awareness among youth. The organizers thank all participants, volunteers, and the medical team for their valuable contribution and look forward to conducting more such events in the future.

PO JUSTIFICATION:

1. PO6 – The Engineer and Society:

- Blood donation directly addresses societal needs by helping save lives.
- Students demonstrate awareness of health and safety in a community context.

2. PO8 – Ethics:

- Volunteering for blood donation promotes ethical responsibility and empathy.
- Reflects professional and moral obligations towards society.

3. PO9 – Individual and Team Work:

- Organizing or participating in a camp involves teamwork, coordination, and leadership.
- Encourages cooperation among peers for a social cause.

4. PO10 – Communication:

- Students engage with donors, medical professionals, and the public.
- Helps in developing oral and written communication skills through announcements, posters, etc.

5. PO12 – Life-long Learning:

- Such activities create awareness and build a lifelong sense of civic and social responsibility.

- Encourages learning beyond academics, developing holistic growth.
