QUIZ COMPETITION**

QUIZ COMPETITION

As part of the Republic Day celebrations, NSS Unit 180 organized an engaging quiz competition that saw enthusiastic participation from several students across the college. The event tested their knowledge on various topics, fostering a spirit of learning and healthy competition. After an intense and exciting contest, the winner was awarded a prize in recognition of their outstanding performance. The program successfully highlighted the importance of education and patriotism, making the celebration even more memorable

Date of Event : 27/01/2025
Venue: HIGH TECH ROOM

Participants: Students of the EEE Department

OBJECTIVES OF THE PROGRAMME

- To test and enhance students' knowledge in core Electrical and Electronics Engineering topics.
- To promote critical thinking, analytical ability, and academic engagement.
- To encourage teamwork, competitive spirit, and time-bound decision-making.
- To integrate technical learning with fun-based and interactive educational activities.

OUTCOMES OF THE PROGRAMME

- Reinforced students' conceptual understanding of key engineering subjects.
- Encouraged team collaboration and competitive learning.
- Improved time management, reasoning, and decision-making under pressure.
- Increased student engagement in co-curricular academic activities

PO JUSTIFICATIONS

PO6 The Engineer and Society Encourages understanding of the engineer's role in nation-building and social responsibility through civic education.

PO8 Ethics Reinforces ethical values, responsibilities, and duties of citizens as per the Constitution of India.

PO9 Individual and Team Work If conducted in teams, it enhances collaboration, mutual respect, and coordination.

PO10 Communication Improves articulation, expression of ideas, and effective participation in discussions or answer sessions.

PO12 Life-long Learning Encourages continuous self-learning about constitutional values, national history, and current affairs.
