**REPORT ON
International Women's Day**

ORGANIZED BY: Mar Baselios Christian College of Engineering And Technology (MBC CET)

DATE: MARCH 8, 2025

Location: Peermade, Kerala

Theme: **"EMPOWERING COMMUNITIES, SUSTAINING NATURE"**

INTRODUCTION

In celebration of international women's day 2025, mar baselios christian college of engineering and technology (MBC CET), peermade, organized a community-wide cleaning drive on March 8, 2025. With the theme "empowering communities, sustaining nature", the event aimed to not only celebrate women's contributions to society but also to reinforce the importance of environmental responsibility and civic engagement.

The initiative was designed to serve as a dual-purpose event—honouring the spirit of women's leadership while promoting a cleaner, healthier environment for the people of peermade.

OBJECTIVES

The main objectives of the cleaning drive were:

- To instill a strong sense of civic responsibility among youth and citizens.
- To promote environmental cleanliness and sustainability.
- to commemorate international women's day through a meaningful social initiative.
- To engage the community in waste management and eco-conscious practices.
- to enhance the aesthetic appeal and ecological health of peermade.

PLANNING AND ORGANIZATION

The event was coordinated by the environmental club and women empowerment cell of MBC CET, under the guidance of faculty coordinators and support from the student council. Prior to the event, the organizing team conducted site assessments to identify priority areas requiring cleaning. Awareness posters and invitations were distributed to the local community.

A formal briefing session was held at the college campus to educate volunteers about the goals, safety measures, and logistics of the drive.

Acknowledgements

MBC CET extends sincere thanks to:

- Peermade panchayat and residents
- All student volunteers and faculty
- The women empowerment cell and environmental club
- Supporting sponsors and staff facilitators

The event titled "Empowering Communities, Sustaining Nature" on International Women's Day for electrical engineering students can be justified under the following Program Outcomes (POs) and Program Specific Outcomes (PSOs):

Relevant Program Outcomes (POs):

- PO6 – The Engineer and Society:
The event addresses societal issues by focusing on the role of women in engineering and the empowerment of underrepresented communities. It creates awareness of the engineer's responsibility to promote equality and social well-being.
- PO7 – Environment and Sustainability:
The theme "*Sustaining Nature*" directly aligns with promoting sustainable practices. Discussions or initiatives during the event that touch upon green energy, eco-conscious engineering, or sustainability efforts align with this outcome.
- PO8 – Ethics:
The event emphasizes gender equality, inclusion, and respect—core ethical principles relevant in both professional and societal contexts.
- PO9 – Individual and Team Work:
Participation in organizing or engaging with the event fosters teamwork and leadership among students, especially in collaborative environments.

- PO10 – Communication:
Any presentations, panel discussions, or awareness campaigns within the event enhance the communication skills of the students and speakers.
- PO12 – Life-long Learning:
The session encourages students to learn beyond academics by exploring gender, sustainability, and their impact on the professional world—nurturing a mindset of continuous learning.

Conclusion

The international women's day 2025 cleaning drive at peermade served as a powerful reminder of the role educational institutions and students play in shaping a more sustainable society. MBCCET remains committed to fostering eco-conscious, socially responsible engineers and leaders who drive positive change.
